

## CuTEC<sup>®</sup> USPTO | EPO Patent Pending

CuTEC<sup>®</sup> is a unique and proprietary copper fiber that utilizes the qualities of copper and permanently binds copper to the fiber matrix of 1) **polyester**, 2) **nylon** and 3) **spun polyester fibers**.

These unique attributes allow for the production of knitted fabrics, woven fabrics, seamless apparel, glove inserts, socks, hosiery, narrow elastics, wound dressings, and much more.

The products that contain CuTEC<sup>®</sup> help reduce odor, improve hygiene and enhance the look and feel of the skin creating a healthier environment for the wearer.

## Before and After Examples

Improvement of skin tears and bruising wearing CuTEC<sup>®</sup> arm sleeves over a 10 day period.
